Bremerton, WA 98310

OHIO OUT FALL

Subject: Expiration Notice for Use Authorization No. 22-002655

Dear Pat Coxon:

Our records show that your Aquatic Lands Use Authorization at the legal description on the enclosed form will expire on March 1, 2016. Please complete the form at the end of this letter and return it to me within 30 days to notify of your intent.

If you choose to enter into a new agreement, I can mail you an application or you may access it online at: <http://tinyurl.com/AQJARPA>

The Washington State Department of Natural Resources (DNR) is the steward of 2.6 million acres of state-owned aquatic lands. As the steward of Washington's state-owned aquatic lands, we research and identify best practices to protect the aquatic environment, and update our policies accordingly. The specific nature of the terms for a new agreement will depend on the site-specific conditions at your Easement. To find out more about DNR's stewardship, visit our website www.dnr.wa.gov.

Prior to entering into a new easement agreement, DNR is requiring that the City of Bremerton conduct sediment sampling adjacent to this outfall. If you have existing information from previous sampling events, please provide that information with your application.

I look forward to hearing from you. If you have any questions, please contact me at 206-949-1740 or by e-mail at Lindie.Schmidt@dnr.wa.gov.

Sincerely,

Lindie Schmidt, Land Manager
Aquatic Resources Shoreline District
